

Breastfeeding Friendly Award Criteria

To become breastfeeding friendly the premises should:

- Be clean, warm and comfortable
- Display a sign showing that breastfeeding is welcome in all public areas
- Have a breastfeeding policy or agreement – a generic one can be provided by the infant feeding team if required
- Where possible and if requested provide a discreet feeding place

Following a site visit, the business can be listed as breastfeeding friendly.

All premises will be given infant feeding contact details if any issues arise.
